Report

On the basis of the notification of the office of the Principal C.K.B. College dated 5/11/2019 the following report is prepared to frame up policy on water conservation, energy conservation etc.

1. Energy Conservation Measures

The institution will take initiatives to save energy by using solar panels inside the campus. The classrooms, corridors and other spaces have LED Bulbs and LED Tube lights to save energy. Sensor-based lights are also to be used to save energy. A person to be appointed to monitor and on/ off switches of the unused fans and lights.

2. Waste Management System

The institution will effectively deploy mechanism to dispose the bio-degradable and non-biodegradable through various means. The college will place dustbins at certain places for usage. The wastes may be disposed through Teok Municipality dustbins. For E-Waste disposal, the machines and devices after their useful lives may be discarded through buyers of scrap materials. There may be a Disposal Committee of the college to deal with the waste management system. The wastes of the animals [cow, goat, pigs etc.] present in the college campus may be used as crop and flower garden fertilizer for soil enrichment.

3. Water Conservation Measures

The institution may use the ponds of the college as natural water reservoir and equally artificial water reservoirs may also be used to save water.

4. Disable-friendly environment

The institution has to put effort to provide a favourable quality environment to the specially-able students. There should be facility of ramps at the campus for their usage. Extra time may be provided in the examination if required for any disabled students. A branch office for the disabled students may be opened in the college.

This report is submitted to the Principal's Office on this very day of 21st November 2019 by us.
